Dr Kapil Zirpe - The Pediatric members were like other life members. They can get elected in Executive Committee by elections. Every year conference organising secretaries have given poor feedback of Pediatric section.

Dr Kapil Zirpe - Since last few years center run conferences has been discussed for streamlining conference. The major issue has been Finance and conflict of Organizing Committee and center. It is silver jubilee year and time for implementing this important change. The Mumbai Branch had agreed for center run conference without constitutional amendment. The house applauded office bearers of Mumbai branch. ISCCM Journey started from Mumbai. Hence, this constitutional amendment is proposed for implementing from Mumbai conference. The conference is owned and done by center. It will be hosted by local branch.

For venue, the city branches having convention center will be selected.

Indian Journal of Critical Care Medicine (IJCCM)

Our pubmed indexed journal - Indian Journal of Critical Care Medicine (IJCCM) is running well. It has been on time as a monthly journal throughout the year 2018.

Each issue has had 15-20 articles. Original articles have been 4-7 each issue.

10-20% articles have been from outside India.

The rejection rate has been on average around 20% this year.

As per decision of Executive Committee, the IJCCM publishers have been changed. Jaypee Bothers Medical Publishers (Pvt) Ltd have been appointed as new publishers of IJCCM from January 2019 issue.

Website

In resonance with the national initiative Digital India, in the the last year, ISCCM has also made some significant steps towards digitization of our society. We are happy to present some highlights of the activities towards that in the year that just went by.

Information Website

ISCCM information website www.isccm.org has rich information about the society and its activities and events. ISCCM has taken a unique initiative to offer ISCCM Membership ID from its website (using OTP based authentication) This model was adopted on the basis of Adhar Card website. Additionally, members now also generate their membership certificates on www.isccm.org

ISCCM Membership Database

In a major initiative to update the accuracy and health of our database, ISCCM undertook the 3 months activity to update membership data. The results were very encouraging, as ISCCM now has a much more robust database. We have already seen much better impact of this improved data in all our activities.

Branch Management System (BMS)

One of the major highlights in the past year has been ISCCM's Branch Management System initiative. All the ISCCM branches are now linked with the center through the BMS, where they are sharing important information such as branch activities, accounts details, queries etc. We hope to make BMS more active in coming years.

Education

ISCCM education portal also saw great progress. The new education portal (<http://education.isccm.org>) has automated most activities of ISCCM education. From new student applications, teacher applications, to payment of fees and even generation of Hall Tickets <http://education.isccm.org> has been completely revamped.

Election (E-Voting)

Over the past several years ISCCM has been using E-Voting system. ISCCM was one of the very first medical societies in India to adopt E-Voting and was a leader. This ISCCM took this initiative even further as we promoted and encouraged ISCCM election portal to be used by its local branches. This several branches took advantage of ISCCM election portal. We hope more and more branches come forward to take advantage of this initiative by ISCCM.

Research

ISCCM also used website to conduct research projects such as INDICAPS II. In the coming year we are planning to operationalize CHITRA.

As mentioned above, while our nation is using technology and digitization to become a smarter nation, ISCCM is doing its bit to improve communication, participation and governance using technology and digitization. We are glad to have achieved so much in a year, through the support of members, branches, secretariat, and all other stakeholders of the society. The results are surely encouraging for whole society look forward and continue the improvement.
